Date	Version	Author	Change Details
30 June 2022	1.0	Ramesh Maturu	Initial
10 July 2023	1.1	Praveen Kumar / Iain Struan / Ramesh Maturu	Modifications due to new website release
19 July 2024	1.2	Joel Lawhon	Style and layout

Pyramid Consulting, Inc. is committed to providing a website accessible to everyone, including individuals with disabilities. We are constantly working towards improving the accessibility of our website to ensure that we provide equal access to all of our users.

What we are doing about web accessibility?

To make our website accessible to everyone, we have implemented the following features, among others:

- Screen reader compatibility
- Alt-tagged images
- Keyboard accessible navigation
- Adjustable font size
- Adjustable color / contrast ratio
- Labelled form controls
- Sitemap
- Search function

Our website is compatible with the most popular free accessibility software and services, including:

- **JAWS**, a screen reader for Windows.
- **NVDA**, an open-source screen reader for Windows.
- **Lynx**, a text-only web browser for blind users with refreshable Braille displays. Compatible with Windows, Macintosh, Linux, and other operating systems.
- **Links**, a text-only web browser for visual users with low bandwidth. Compatible with Windows, Linux, and other operating systems.

Instructions for increasing or decreasing the size of text and images.

Microsoft Internet Explorer:

- Press the **Alt** key to display the menu bar, click **View**, and then click **Text Size**; or
- Press and hold down the CTRL key, and while holding the **CTRL** key, press the **+** key to increase the size of the text and images or press the **–** key to decrease the size of the text and images.

Mozilla Firefox:

- Press the **Alt** key to display the menu bar, click View, then go to **Zoom**.
- Select **Zoom Text Only** to adjust the size of the text.

Apple Safari (OS X):

- To enlarge the entire page, choose **View** > **Zoom In**, or press **Command** (⌘) and the **+** key.
- To enlarge only the text, choose **View** > **Zoom Text Only**, and then choose **View** > **Zoom In.**

Google Chrome:

- Click the Chrome menu on the browser toolbar.
- Select **Settings**.
- Click **Show Advanced Settings**.
- In the "**Web Content**" section, use the **Font Size** drop-down menu to make adjustments.

Instructions for adjusting the color / contrast on our website

Microsoft Internet Explorer:

- Select the **Tools** menu (shortcut: **ALT** + **X**).
- Select **Internet Options.**
- Select the **Colors** button in the bottom left-hand corner (shortcut: **ALT** + **O**).
- Ensure the "**Use Windows colors**" check box is not selected (shortcut: **ALT** + **W** to toggle on / off).
- Choose your desired colors by selecting the color box and then choosing from the available colors. You can change the colors for text, background, visited and unvisited hyperlinks and hover.
- Select **OK** on the Colors screen.
- Select **OK** on the Internet Options screen.

Mozilla Firefox:

- Select the **Tools** menu (shortcut: **ALT** + **T**).
- Select **Options.**
- Select the **Content** option in the top-middle of the menu.
- Select the **Colors** button on the middle, right-hand side.
- Choose your desired colors by selecting the color box and then choosing from the available colors. You can change the colors for text, background, and visited and unvisited hyperlinks.
- Uncheck the **Use system colors** box.
- Select **OK** on the Colors screen.

Apple Safari (OS X):

- Select the **Safari** menu, then select **Preferences.**
- Select **Appearance**, which is the second option on the right.
- Under **Standard font**, select the **Select** button. Choose your desired font type, size, and color.
- Click **OK** on the **Preferences** screen.

Google Chrome:

Google makes available extensions that allow you to adjust the colors of Google Chrome, which you can find on the Google Chrome Extensions website. Simply visit the website and search for "color change."

- When you find the extension you would like, click **Add to Chrome** for installation.
- Once installed, you will see the icon for the extension at the end of the URL field.
- Right-click on the icon, and you will be able to change the background color, text color, links color, and visited links color.

Questions or feedback

If you have any questions or feedback regarding the accessibility of this site, or if you experience any difficulty using it, please contact us at marketing@pyramidci.com and we will be happy to help.
